

# THE ORBEL AWARD 2023

## The Organization

ORBEL is the Belgian Society for the promotion of operational research and analytics. Its goal is to contribute to the science, the development, and the adoption of advanced tools, methods, and knowledge in those fields, by stimulating multidisciplinary research and scientific collaboration among its members, as well as fostering cooperation with industry and society in general, both on the national and the international level. Its main fields of interest include optimization, simulation, data science, and other quantitative methods for effective decision making in complex environments.

ORBEL is a member of EURO, the Association of European Operational Research Societies, and IFORS, the International Federation of Operational Research Societies.

For more information on the society, its activities and the award, visit the website [www.orbel.be](http://www.orbel.be).

**Win €1500** for your thesis  
in operational research (OR)

## The Award

Every year, ORBEL, the Belgian OR-society, organizes a student competition funded by OMP.

The ORBEL Award (worth €1500) is given to the author(s) of a scientifically oriented thesis (no PhD thesis!). The criteria for judgement are based on the efficiency and effectivity of the scientific approach applied to solve the problem under study.

The author(s) should put emphasis on the application of existing methods in new areas or on the application of new solution methods for models recognized as useful for solving real-life management problems. One of the criteria will be, therefore, the actual collaboration with industry during the thesis elaboration.

The paper can be written in Dutch, French or English. It will be assessed by a jury mainly taking into account the effectiveness of the theoretical methods to solve practical problems.

Submission procedure: send, before November 1, 2022, a PDF file of your thesis to Professor Roel Leus at [roel.leus@kuleuven.be](mailto:roel.leus@kuleuven.be) stating that you want to compete for the 2023 ORBEL Award. Ask for a confirmation in your mail.

Information and regulations: [www.orbel.be](http://www.orbel.be)

## The Sponsor

OMP is a software and consulting company delivering advanced supply chain planning solutions for specific industries worldwide. The main mission: optimizing its customers' supply chains. How? By developing its own innovative planning software that meets and exceeds expectations.

With a workforce of over 900 people in offices around the world, OMP has become a renowned player in the supply chain planning market.

Many of the customers are leading global companies, such as ArcelorMittal, BASF, Dow, L'Oréal, Michelin, Procter & Gamble, Shaw, Shell, Smurfit Kappa and Yoplait.

OMP sponsors the ORBEL Award, because the company believes in supporting young people and giving them a head start in a successful career. Want to know more?
